

MMP in 72 Hours Worksheet.pdf

MMP IN 72 HOURS WORKSHEET

MMP

- 2 active lines aka enroll 2 new MPs with a product pack
- 300 personal volume (products you buy, VIPS, and retail customers)
- 1200 group volume

DIRECTIONS

Reach out list:
Write down 20 people in your hot market

- For each of those 20 people write down 2 people in their circle you think could rock the biz
That's 60 people to reach out to in the first days in the business
- Get with your upline to help craft out what to say and how to approach these people!
- Make sure it sounds like you

When you get at least 2 people on board + your product pack volume that's 600 gv

600 more to go!

Have three washes set up

REACH OUT LIST

A diagram for a "REACH OUT LIST". It consists of four rows. Each row starts with a large rectangular box on the left containing a horizontal line for a name. From the right side of this box, two lines branch out to two smaller rectangular boxes stacked vertically on the right, each also containing a horizontal line for a name. This structure allows for listing 20 primary contacts and their respective two secondary contacts.
